Adams County ARES Net Roster and Preamble

ADAMS COUNTY ARES NET PREAMBLE

Attention all stations. Attention all stations. This is **your call** calling a regular net session of the Adams County ARES Net through repeater W9AWE/R on 147.63/.03. My name is **your name** and this station is Net Control for this session. This net meets each Wednesday at 7 PM and is a directed net. This net meets to encourage emergency preparedness and to exchange information among area amateurs. All stations are invited to check into the net. I will begin with roll call and then take a standby for any stations not on the roll or anyone a few minutes late. When you check in, please give your name, location and indicate any traffic or announcements you may have for the net. I will then call for these items at the end of roll call. Before beginning roll call, are there any stations with priority traffic or any stations on short time? I will now call the roll.

Following roll call, first handle any formal or priority traffic. Following that, ask for late check-ins and then take announcements in the order that stations checked-in.

I am now closing this session of the Adams County ARES Net. I would like to thank everyone for their participation. This net will meet again next Wednesday at 7 PM on this same frequency. **Your callsign** is now closing and returning the frequency to general use.
